

- Adding a box is simple, just add the box information in the fields shown and press submit.
- If the Box ID is already in the database the user will be notified and the submission will not go through.

The screenshot displays a web application interface for adding boxes. At the top, a dark navigation bar contains links: Home, Contents Lookup, Add an Aliquot, Aliquot Info, Aliquot Table, Box Info, Add a Box, and Upload CSV?. The BIO-RAD logo is positioned in the top right corner. On the left side, a vertical sidebar shows the user's identity as 'USER: Tester' and a 'Logout' link. The main content area is titled 'Add Boxes' and includes the instruction 'Add the appropriate information in the fields below'. Below this instruction are several input fields, each with a label to its left: 'Boxid', 'Freezer', 'Cage', 'Cane', 'Stack', 'Invnum', 'Insertdate', and 'Invcomments'. Each of these labels is followed by a white rectangular input field. The 'Invcomments' field is a larger text area at the bottom of the form.
